

**The Mobility Fund**  
*of the*  
**Middlesex Lambton Huron Association of Baptist Churches**

**Purpose of the fund:**

This fund has been created to assist those within our association of Baptist Churches who suffer from limitations to their mobility. Although originally designed to help those in wheelchairs with the exceptional expense that is involved, there has been a need to assist others whose mobility has been threatened or curtailed due to a variety of other factors. There is a desire to assist any and all within our association who have such a need.

The mobility fund can be used to assist a member or adherent of a member church to be more mobile. This may include assistance in the expense of the purchase or maintenance of a wheelchair which is not already covered through government assistance programs. There, however, may be other expenses which will also assist in mobility, and these should be considered. If there is any hesitation about the suitability of the expense, the trustees will consult with the operator and the association executive.

**Donations to this Fund:**

The main source of monies for this fund have been the collection of pop cans/tabs which have then been sold for the value of the metal in them. This continues to be the primary source of income.
